

VISION

Advancing Rights and Independence

In concert with the California Department of Developmental Services, Sonoma Developmental Center will:

Be a nucleus of best practices that will provide people with developmental disabilities (people) the tools and experiences necessary to positively influence their future.

Forge partnerships and effectively utilize all available human and physical resources to develop and implement winning programs, services, and initiatives that meet the life-evolving needs of people.

Innovatively develop, advance, and deploy eminent models of service distinction.

Be continually accountable through the use of mechanisms that measure and monitor outcomes.

VALUES

We:

- ❖ Have a philosophy of serving others that is dedicated to clients, staff, and stakeholders through timely, considerate, competent, and committed actions.
- ❖ Are an organization that is built on respectful relationships, that honors choice, rights, trust, and communication.
- ❖ Responsibly manage resources – fiscal, physical, and human– through planning and preservation.
- ❖ Promote leadership at all levels because we are responsible, innovative, dynamic, and inclusive.
